Candidate - Register

A screenshot of the candidate registration form. At the top, there are "Login" and "Register" buttons, with "Register" being the active tab. The form contains the following fields: "Email Address", "First Name" and "Last Name" (in separate input boxes), "Create Password (must contain at least 5 characters)", "Phone Number", "Location", "Upload Your CV" (button), "Upload Your Video CV" (button), and a "Register" button. To the right of the form is a white rectangular area containing a cartoon illustration of a person holding a smartphone and a large orange circle with a checkmark inside it, symbolizing success or completion.

Candidate - Login

The image shows a candidate login form. At the top, there are two buttons: "Login" (highlighted in grey) and "Register". The main form area contains two input fields: "Email Address" and "Password". Below these fields is a link "Forgot your password?". At the bottom of the form is a "Login" button and a "Login via LinkedIn" link. To the right of the form is a light gray illustration of a person with dark hair, wearing an orange shirt and black pants, standing in front of a large arched doorway, holding a small orange ball.

Candidate - Profile (Projects)

The image displays a candidate profile interface on a web application. The left sidebar shows a navigation menu with options like Dashboard, My Profile (highlighted in red), Messages, My Applications, Test Results, Support, and a main menu. The main area shows a search bar and a user profile for Adam Spartarshi, a Software Developer based in Dortmund, Germany. Below the profile are tabs for Education, Projects (highlighted in red), Work Experience, and Certifications. A detailed project description for 'Job Portal Web Application' is shown, mentioning job portals as integral to hiring and listing technologies like React, Node, and MongoDB. To the right, there's a 'Social' section with icons for Facebook, LinkedIn, GitHub, and Twitter, and a 'Description' section with a bio about Adam being a Computer Engineering student seeking opportunities. A skills section lists React, Node, ExpressJS, .NET, MongoDB, and Django.

Who we are

Schulz is a family-run craft business from Dortmund. For many years we have been a competent contact for lighting and electrical engineering.

- Everything from a single source: One contact for consulting, planning and implementation
- Quality: We work closely with reputable manufacturers and wholesale partners.
- Reliability: Punctuality is a top priority for us. We complete our projects within the agreed deadline.
- Fair pricing: High quality and fast services at reasonable, customer-friendly prices.
- Customer focus: We are flexible in every direction and always adapt to the latest technology and the individual needs of our customers.
